

THE FUTURE OF MASS PRODUCTION

HIGH SPEED DTG & DTF HYBRID PRINTERS

OEKO-TEX®
CONFIDENCE IN TEXTILES
STANDARD 100

Q1 DTG HYBRID

75 Light Shirts/Hour
50 Dark Shirts/Hour

PRINT DTG & DTF
transfers on one machine

DTG Digital™ Q1 Hybrid

The **Q1 Hybrid Series** printer sets a new benchmark in desktop DTG printer performance. Print more garments per hour with dual print heads that deliver faster print speeds. Expand the range of items you can decorate using both DTG and DTF technology in a single print platform. Simple switch feature from DTG to DTF transfers for true application versatility.

- ➔ Up to 50 dark garments per hour in production mode and 75 light shirts
- ➔ Linear motion guide carriage with auto height adjustment
- ➔ QLVP patented (quick load vacuum platens)
- ➔ Heavy duty 2 stage ink mist extraction
- ➔ New formula EDTG series inks designed for longer print head life
- ➔ Advanced auto head and cap cleaning systems
- ➔ User replaceable bulk 1.0Liter ink packs
- ➔ Patented white ink recirculation/white ink flush through on demand system A.I.R.®
- ➔ Reverse firmware for transfer prints inbuilt
- ➔ Two year warranty first year including print heads
- ➔ Easy to set-up and designed for industrial use

- ➔ Dual trailing staggered head array

Specifications	Q1 Direct to Garment Hybrid Printer
Printhead	Dual heads 8 lines white and 8 lines colour 6400 Nozzles total - 400 nozzles/line.
Colour	CYMK + W + Flush liquid
Print Area	16 x 20 inch (410 x 500mm) Medium and small platens included
Inks	Type EDTG series
Ink Delivery	User replaceable 1.0L bags - pressurised re-circulation - white (WIMS)
Drive	Processor driven conveyor
Operating System	Vista, XPRIP, Win7-10 - DTG Rip Pro System
Electrical	240 V, 4.6 A, 50 Hz - 60 Hz
Dimensions	DTG Q1 1220(W) x 550(H) x 1000(L)mm 48"(W) x 21.7"(H) x 39"(L) Table 1220(W) x 600(H) x 1000(L)mm 48"(W) x 23.6"(H) x 39"(L)
Weight	DTG Q1 145.6kg (321lb) (boxed weight will vary) Table 42Kg (92.5lb)

The **DTG Digital Q1 Hybrid** garment printer establishes a new standard for professional direct prints for all finished garments and fashion panels. The **Q Hybrid Series** printers are designed for both direct to garment printing (DTG) and direct to film (DTF) for heat transfer applications from a single printing platform.

The **Q Hybrid Series** printers enable garment decorators to expand the range of products they can decorate using both direct and indirect methods of garment decoration.

WIMS (White Ink Management) & A.I.R.® (Automatic Ink Refresh)

QLVP (Quick change vacuum platens) Various sizes

Intuitive control panel with toggle

Bulk ink - 1.0 Litre packs
