100 Dark Shirts/Hour

PRINT DTG & DTF

Transfers on one machine

DTG Digital™ Q2 Hybrid

The **Q2 Hybrid Series** printer takes DTG printer performance to industrial level production. Four print heads for increased production speed. Print hundreds of garments an hour with direct-to-garment (DTG) and simply switch to direct-to-film (DTF) to produce best in class transfers for both synthetic and natural fabrics. Load garments efficiently with dual QLVP vacuum platens. Expand the range of items you can decorate using both DTG and DTF technology in a single print platform.

- ➔ Up to 100 dark garments per hour in production mode and 185 light shirts
- ➔ Dual (2) QLVP patented (quick load vacuum platens)
- ➔ New formula EDTG series inks designed for longer print head life.
- ➔ User replaceable bulk 1.0Liter ink packs
- ➔ Reverse firmware for transfer prints inbuilt
- ➔ Easy to set-up and designed for industrial use
- ➔ Quad (4) trailing staggered print head array
- ➔ Linear motion guide carriage with auto height adjustment
- ➔ Heavy duty 2 stage ink mist extraction
- ➔ Advanced auto head and cap cleaning systems
- ➔ Patented white ink recirculation/white ink flush through on demand system A.I.R.®
- ➔ Two year warranty first year including print head

Specifications	Q2 Direct to Garment Hybrid Printer
Printhead	Quad (4) heads - 16 lines white and 16 lines colour 12,800 nozzles total - 400 nozzles/line.
Colour	CYMK + W + Flush liquid
Print Area	16 x 20 inch (410 x 500mm) x 2 Medium and small platens included
Inks	Type EDTG series
Ink Delivery	User replaceable 1.0L bags - pressurised re-circulation - white (WIMS)
Drive	Processor driven conveyor
Operating System	Vista, XPRIP, Win7-10 - DTG Rip Pro System
Electrical	240 V, 4.6 A, 50 Hz - 60 Hz
Dimensions	1066(W) x 1400(H) x 1931(L)mm 42"(W) x 55"(H) x 76"(L)
Weight	394.8kg (870lb) (boxed weight will vary)

The DTG Digital Q2 Hybrid garment printer provides even greater flexibility in direct garment prints where speed, colour accuracy and Industrial reliability are key to success. The Q Hybrid Series printers are designed for both direct to garment printing (DTG) and direct to film (DTF) for heat transfer applications from a single printing platform. The Q Hybrid Series printers enable garment decorators to expand the range of products they can decorate using both direct and indirect methods of garment decoration in one platform.

WIMS (White Ink Management) & A.I.R. (Automatic Ink Refresh)

QLVP (Quick change vacuum platens) Various sizes

Intuitive control panel with toggle

Bulk ink - 1.0 Litre packs
